

STORAGE

WOODEN STORAGE

STORAGE

The fast and efficient retrieval of information is a key factor for the smooth running of any office. At Project we offer a wide variety of storage styles to ensure the requirements within your environment can be fulfilled. From wooden storage in finishes to complement Project: Desking, through cost-effective metal options to semi-bespoke wall storage installations, we have the perfect solutions. Designed to provide both personal and bulk stored facilities, the Project: Storage range is designed to offer functionality with style.

WOODEN STORAGE

Case Study: Harlow Council

When planning the move to a striking new Civic Centre, Harlow Council recognised that the achievement of their ambitious objectives required the selection of an office furniture partner who could offer an holistic approach to the creation of their new environment.

The £8.7 million building has been designed with low maintenance and whole-life costs as paramount considerations. The Council was also determined to award the contract to a company that could offer a meaningful ten year guarantee and continuity assurance. Project Office Furniture was the natural choice.

Having undertaken an extensive audit of requirements and usage considerations, the Project: team recommended a solution that incorporated floor-to-ceiling wall storage units and freestanding side tambours. These were fitted with adjustable internal fitments to accommodate filing and shelf based media. Workstations were provided from the Rapide range, in conjunction with task, reception and break out seating to complete the entire environment.

WOODEN STORAGE

Wall Storage

Project: understand how offices work, and a correctly functioning office should have a place for everything. Project: Wall Storage is the ultimate storage system.

Wall storage offers a discreet solution to delivery a professional office environment. Project: Wall Storage has clean lines, which empathise with modern office furniture. It is designed to take the same filing and storage accessories as Project: on-floor storage, thus providing a consistent storage solution across the whole office.

Other filing systems can be incorporated. The system is modular and the scribe in top and bottom panels provide the wall to wall fitted look. End finisher panels complete the built in look.

Wall storage units are available in oak, light grey and maple mfc finishes.

WOODEN STORAGE

Wall Storage Units see below for dimensions w x d x h

- WSDDU Double Door, 1000 x 484 x 2600–2820mm*

WOODEN STORAGE

Workstyle Storage

Project have developed a full breadth storage range, offering side opening tambours, hinged door, open front and bookcase units. Available in a range of heights, these units can be combined with the desking to provide personal storage solutions, or used away from the desk to fulfill bulk or archival needs.

A complementary range of internal fittings are available, enabling personalisation of each storage unit.
